Conditions:				
<ol style="list-style-type: none"> 1) This permit is being approved on the basis of plans submitted. Any deviations shall require a separate approval before starting that work. 2) As discussed during the review process, the property must be clearly identified prior to pouring concrete and compliance with the required setbacks must be established. Due to the proximity of the setbacks of the proposed addition, it may be required to be located by a surveyor. 3) This property shall remain a single family dwelling. Any change of use shall require a separate permit application for review and approval.

Conditions:				
<ol style="list-style-type: none"> 1) Hardwired photoelectric interconnected battery backup smoke detectors shall be installed in all bedrooms, protecting the bedrooms, and on every level. The same is required for existing buildings, where permanent wiring is feasible; or at the very least battery operated smoke detectors are required. Verification of this will be upon inspection. 2) Separate permits are required for any electrical, plumbing, sprinkler, fire alarm, HVAC systems, heating appliances, including pellet/wood stoves, commercial hood exhaust systems and fuel tanks. Separate plans may need to be submitted for approval as a part of this process. 3) Carbon Monoxide (CO) alarms shall be installed in each area within or giving access to bedrooms. That detection must be powered by the electrical service (plug-in or hardwired) in the building and battery. 4) This permit is approved based upon information provided by the applicant or design professional. Any deviation from the final approved plans requires separate review and approval prior to work.
