Subject: 710 Forest Ave - Eminent Domain Sign Relocation

Good Afternoon Ann,

Delta Realty is the owner of the property located at 710 Forest Avenue / Concord St/ Saunders St., which will be affected by the City of Portland and MDOT's Woodford's Revitalization project beginning this summer.

1,411 square feet of our Forest Avenue frontage will be taken by Eminent Domain, which requires that we relocate the existing freestanding multi-tenant sign. Since Delta Realty was given 15 days to obtain two proposals for the cost of this relocation, Rose Rinaldi from the MDOT, Roger Flannery of Sign Design, and I met onsite yesterday to determine the best area for this relocation. Unfortunately, after reviewing the Zoning requirements for signs in B-2 zones, I now question whether what Roger and Rose recommended will be allowed.

This property is in a B-2c zone which, from what I managed to get out of the Code Ordinance (Division 22, page 14-525, Section 14-369.5 Tables, page 14-538, and Table 2.6 and 2.13 pages 14-549 and 14-14-557) is restricted to 18 feet in

height with a setback of 5 feet. Am I correct with my findings, and if so, does the City provide variances for events like Eminent Domain? Unfortunately, we are getting hit with a lot of changes to and around our property, that are going to make it extremely difficult for our tenants to retain and obtain customers. We at least hoped to have a new place to set the sign in an area where it could be seen.

Any advise that you could provide would be greatly appreciated.

Thank you!

Andréa Girard
