

**REMODELED CONDITIONS:
PROPOSAL "A"**

PROPOSED: SMOKE DETECTOR SPECIFIED BY City of Portland, Maine

Fire Department, Dept. Services § 108.00
City of Portland Requirements for Smoke and Carbon Monoxide (CO) Alarms
All new and replacement smoke and CO alarms shall be hardwired with battery backup.
New smoke alarms shall be photoelectric.
Location
Smoke alarms shall be located within each sleeping room, immediately outside of each sleeping room, and on each level of the dwelling.
CO alarms shall be located immediately outside of each sleeping room and on each level of the dwelling.
Proper installation
Smoke alarms shall be located as follows:
on an interior wall within 12 inches of the ceiling or
on a ceiling at least 4 inches from a wall end,
on a sloped or peaked ceiling within 36 inches of the high point.
Smoke alarms shall not be located as follows:
on an exterior wall or
beneath a poorly insulated ceiling underneath an unfinished attic within ten (10) feet horizontally from a cooking appliance,
within 36 inches horizontally of the top of any ceiling fan, an air register, or bathroom door,
in any location that is not maintained above 48° F at all times.
CO alarms shall be installed in accordance with manufacturer's instructions.
Combination CO and smoke alarms shall not be located where smoke alarms are not permitted above.
Interconnection of smoke and CO alarms within the dwelling unit is not required if the dwelling is being renovated.
