NFPA 80- ANNEX D.4 1-HOUR FIRE DOORS ASSEMBLIES REQ; Listings are provided for floor fire door assemblies that are installed in fire-rated floor-ceiling or roof-ceiling assemblies that have been tested in accordance with the methods described in NFPA 288. The listing indicates the fire-rated assembly and the hourly rating (3 hours, 2 hours, 1.5 hours, 1 hour, .75 hours) for which the door can be permitted to be used so that access to the space above the ceiling or to the floor above can be provided without adversely affecting the fire resistance rating of the entire assembly. The listing provides limitations on the maximum size of an individual door opening and the total area of all door openings permitted for each 100 square feet of floor or ceiling.
