Note:				Ok to Issue: <input checked="" type="checkbox"/>
Conditions:				
<ol style="list-style-type: none"> 1) The garage shall not be used for any business operation or home occupation without the proper permits and approvals from the Permitting and Inspections Department. 2) The ground coverage of the shed shall not exceed 144 square feet and the height shall not exceed 18 feet. 3) The property must be clearly identified prior to pouring concrete and compliance with the required setbacks must be established. Due to the proximity of the setbacks of the proposed structure, it may be required to be located by a surveyor. 4) The review of this permit did not include a review or confirmation of the zoning legal use. It is only approving the specific work described in the plans and forms submitted. The current use of the property may be found to be unlawful. 5) Separate permits are required for any electrical, plumbing, sprinkler, fire alarm, HVAC systems, heating appliances, including pellet/wood stoves, commercial hood exhaust systems, fire suppression and fuel tanks. Separate plans may need to be submitted for approval as a part of this process. 6) This is being issued with the understanding that as a fast track, the owner is responsible for scheduling inspections for the work being done and the inspector may require modifications to the work that has been completed if it does not meet code. 7) This permit is being approved on the basis of plans submitted. Any deviations shall require a separate approval before starting that work.
