Conditions of Approval:

Zoning

1. This permit is being approved on the basis of plans submitted. Any deviations shall require a separate approval before starting that work.
2. This is NOT an approval for an additional dwelling unit. You SHALL NOT add any additional kitchen equipment including, but not limited to items such as stoves, microwaves, refrigerators, or kitchen sinks, etc. Without special approvals. This property shall remain a single family dwelling. Any change of use shall require a separate permit application for review and approval.
3. Separate permits shall be required for future decks, sheds, pools, and/or garages.
4. This property shall remain a single family dwelling. Any changes of that approved use requires a separate permit application PRIOR to the change of use.

Building

1. The installation must comply with UL, the Manufactures' Listing, and State of Maine Gas Regulations.
2. Separate permits are required for any electrical, plumbing, sprinkler, fire alarm, commercial hood exhaust systems and fuel tanks. Separate plans may need to be submitted for approval as a part of this process Maintain proper setback(s) from property lines/buildings and proper clearances from vertical openings when direct venting.

NOTICE

Warranty Registration Card must be filled out by the customer and mailed within thirty (30) days of installation in order to gain warranty coverage.

When receiving the PRESTIGE Solo unit, any claims for damage or shortage in shipment must be filed immediately against the transportation company by the consignee.

Leave all documentation received with appliance with owner for future reference.

⚠ WARNING

If the information in this manual is not followed exactly, a fire or explosion may result causing property damage, personal injury or death.

FOR YOUR SAFETY

- Do not store or use gasoline or other flammable vapors and liquids in the vicinity of this or any other appliance.
- WHAT TO DO IF YOU SMELL GAS
 - Do not try to light any appliance
 - Do not touch any electrical switch; do not use any phone in your building.
 - Immediately call your gas supplier from a neighbor's phone. Follow the gas supplier's instructions.
 - If you cannot reach your gas supplier, call the fire department.

Installation and service must be performed by a qualified installer, service agency or the gas supplier.

Termination Fittings

1. The vent and combustion air terminations must include a factory supplied "bird screen" installed as shown in Fig. 4 page 8 & Fig. 19 page 15.
2. The combustion air piping must terminate through the sidewall using a 90° elbow as shown in Fig. 8 through 11, page 11 or Fig.12 through 15 page 12 .
3. The vent piping must terminate vertically through the roof with a coupling to accept the bird screen and must be located 12" [18" Canada] above the highest anticipated snow level.

WARNING

Do not extend the vent pipe above the roof beyond the dimension shown in Fig. 21 on page 17. Extended exposure of the vent pipe could cause condensate to freeze and block the vent pipe.

Direct Vent - Multiple Boiler Installation - Vertical Vent and Sidewall Combustion Air

1. On installations of multiple PRESTIGE boilers, terminate each vent and combustion air piping as described in this manual.
2. Each vent and combustion air termination must be a minimum 12" from the adjacent termination for installations in the U.S. as shown in Fig. 22. For installations in Canada, provide clearances as required by CSA B149.1 or 149.2.

NOTICE

The combustion air inlet of the PRESTIGE is defined as being part of a direct vent system. It is not considered as a forced air intake. The required clearance of an adjacent boiler vent to a forced air inlet does not apply in a multiple installation of PRESTIGE boilers.
