

1/22/02 - for footing deep - depth ok - No flare at bottom of pier - stopped pour. Called Jerry @ Winter Green - 

1/22/02 Revised Footing Detail Rev'd 

1/27/02 - ~~Went~~ See above - went back - footing & total depth & pattern / Setbacks ok .
Met Jerry - Winter Green rep on site - discussed art 2406 - (tempered glass requirements) - According to Jerry there will be no glass within 36" or 60" of hot slab - Elec permit applied for today. No plumbing permit required 

4/10/03 - work is completed & appears to meet conditions of the permit. JMN
