COMMENTS

10-9-96 No work yet

10-26 No work yet

10-30-96 Contractor has excavated and already installed footings, they have reduced the size of the cooler, fnd., footing to accommodate the tree and it's roots so as not to kill it.

Rebar has been drilled into existing foundation wall @ both points of contact and was not grouted. There will be a floor drain tied into existing interior waste (to be 3"6).

11-22-96 Plumbing Inspection. Have installed a 2'0" long trench/ trough drain, 1 1/2" drain pipe. This is only to be used to mop floors, so sizing is sufficient. Framing Insp OK - Roof Sheathed and shingled.

12-10-97 OK to close permit out.
