City of Portland Building Inspections,

Good afternoon. Attached is a building permit application and construction drawings for a wireless antenna co-location proposed by Redzone Wireless with Tilson Technology Management performing the work. Redzone Wireless is looking to install 3 wireless LTE spectrum antennas for broadband internet service on the roof of the building at 880 Forest Ave., Portland, ME 04103. Please see the attached files for a more in depth overview of the project. If there are any questions, please reach out. Thank you.
