Jean-

I just spoke to Marc Arnold from the Secretary of State Bureau of Motor Vehicles - Office of Investigation. He had come by our office while I was in the meeting this morning. He was asking about Mr. Fard's used car dealership at 785 Forest Ave. He went there since Mr Fard does not have a license from the State to sell used vehicles. Mr. Fard told him that he was not selling vehicles from that location but Marc Arnold does not believe him. He gave Mr. Fard a warning.

I sent Marc Arnold a copy of Marge's Final Notice of Violation. He said that if he hears a complaint from anyone that they purchased a car from that lot, he will give Mr. Fard a ticket. He said that he told Mr. Fard this also. He also wants Mr. Fard to come into compliance by getting the State license but he understands that Mr. Fard has not met all the Site Plan conditions or obtained a Change of Use permit. He told me that he would let me know if he has any future dealings with Mr. Fard.

Ann
