 Estimated cost \$ 90. Fee \$ 50

Description of Present Building to be Altered

Material frame No. stories 2 Heat _____ Style of roof _____ Roofing _____
 Last use Dwelling No. families 2

General Description of New Work

To construct open 6' x 12' plaza with roof over it at the second story level. This is to extend up from first story existing platform, making two story plaza, on side of dwelling house.

The corner posts and intermediate posts are to be no less than 4x6 nominal dimensions, or equivalent, and these posts are each to be made one continuous length or to be spliced at the floor levels. All splices are to be lapped splices at least eighteen inches long and in no case will a post be set on top of the floor below it. Where the plaza is fastened to the building the weather boarding will be removed and the timbers of the plaza fastened directly to the frame of the building.

It is understood that this permit does not include installation of heating apparatus which is to be taken out separately by and at the name of the heating contractor.
