Conditions:				
<p>1) Your present structure is legally nonconforming as to setbacks. If you are to demolish this structure on your own volition, you will only have one (1) year to replace it in the same footprint (no expansions), with the same height, and same use. Any changes to any of the above shall require that this structure meet the current zoning standards. The one (1) year starts at the time of removal. It shall be the owner's responsibility to contact the Code Enforcement Officer and notify them of that specific date.</p> <p>2) As discussed during the review process, the property must be clearly identified prior to pouring concrete and compliance with the required side setback on Irving Street must be established. Due to the proximity of the setback of the proposed addition, it may be required to be located by a surveyor.</p>
