The property is encompassed by 6 ft fencing along the front of the property with a gate and latch. There is also a 6 ft fence along the property line to the right of the house and the back of the house (all stockade fencing). There is a 4 ft metal fence on the property line to the left of the house. There is a 4 ft stockade fence that goes across the driveway with another gate with latch. The property is completely fenced in. I included the fence in the plot plan.

Please let me know if you need anything else.

Thanks,

Janet
