Good morning Eric,

Thank you for taking the time to speak with me about the UNE-Stevens Avenue Armory renovation project. This email is to confirm that the hand wash sink is scheduled to be provided by the food service vendor. The sink is indicated as item #6 on the layout drawing that was previously forwarded. The mop/utility sink is located nearby the warming kitchen as well in room 122 and will be available for use by kitchen staff. New ADA restrooms have also been provided in the facility.

I trust this takes care of your requirements. Please let me know if you need any additional information.

Tyler

Laurie,

I spoke with Tyler this morning about the health requirements needed for the UNE dining/kitchen renovation. We agreed that if there is no food preparation or cooking at this facility, the only requirements would be restrooms, easily accessible hand sink for service staff, and a mop/utility sink. Thanks.

Eric.

Per our conversation, I am attaching a floor plan with kitchen and 2 function rooms, specifications for proposed kitchen equipment, as well as an email from Greg Hogan as to the specific use of the kitchen area. Meal production will be done off site at Alexander Hall.

Can you clarify if there needs to be any of the following:

- 3 bay sink
- · mop sink
- · hand wash sink
- · any other requirements I am not aware of

Thanks,

Laurie
