Attachments: Getting a Building Permit.pdf

First, the PDFs need to be named correctly; they need to be named what they are (no extraneous names, addresses or default names from the scanner).

Second, your application needs to be filled out in it's entirety. The owner info and project description is a requirement.

Third, it looks like you will be doing a change of use to add a dwelling unit. That does require a Certificate of Occupation (and additional fee).

Please consult the attached form for further questions. Once we get the completed application, we can add it to the system. Thank you.

 Could I trouble you to identify the areas that was not completed, so that I could get it corrected and return it.
 If needed here is my cell 415-5220
 Thank you for your time.

The Inspections Division has received your application and has done a preliminary completeness check of your documents. It has been determined that your application does not meet the standard requirements. Please review the application fields, the items required within the checklist and [Applicant Submittal Requirements for Electronic Plan Review](#). Please resubmit your entire application with the appropriate changes and supporting documents accordingly.
