Dear Jeanie,

We recently received approval for our pool permit. Because of the lateness in the season the pool installer will not be installing any additional pools this year. We have signed a contract however to their second installation this Spring. Depending on ground conditions for his initial start date, the pool should be completed by the end of June at the latest. Christina Stacey had written that extensions may be possible and to contact you with this request. Would it be possible to grant an extension until the end of June to be on the safe side? Thank you for your consideration and please let me know if there is any additional information you may require.  
The permit ID is 2016-02199 issued 9/12/2016

Sincerely,

Steve Shaw

Good Morning Steve,

Thank you for contacting me regarding an extension on your permit to install a pool. My apologies for the lengthy process to obtain this.

Work on permits is required to commence within 6 months of the issuance date, September 12, 2016 and the permit is valid until completion as long as there is not more than a 6 month lapse in work. The 6 month date is March 12, 2017, which is not a realistic date for this work to start.

This email serves as confirmation that this permit is being granted a 4 month start date extension until July 12, 2017. Please be sure to contact our office to schedule the required inspections. In reviewing the approval, I noticed it only listed one inspection so I am sending you a new copy of the permit, inspections and conditions. Please note that I added 2 inspections, Setback/Footings prior to pour and Electrical close in.

Let me know if you have any questions.

Best,

Jeanie
