Dear Sandy,

Thank you for speaking with me regarding the demolition of my 1902 carriage house (barn/shed) at 626 Washington Avenue, Portland, Maine 04103

To remind you, it is attached outbuilding of my single family home. It has only served as parking and storage, and does not have services except one light switch. All wooden walls and ceiling and floors are exposed. The exterior has aluminum siding and a shingled roof.

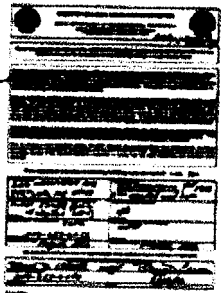

You asked me as a courtesy to send along the attached copy of my "Asbestos Building Demolition Notification", for your reference in case someone calls you during the demo.

Otherwise, you confirmed that you have no further requirements of me at this time.

Wishing you well,

Bruce D Carver
