MEMORANDUM

TO: Code Enforcement

FROM: Jim Wendel, Development Review Coordinator

DATE: October 14, 1996

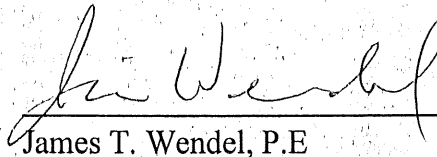

RE: Request for Certificate of Occupancy
101 Country Lane(lot 6)

On October 14, 1996 I reviewed the site for compliance with the conditions of approval.

Two items need attention; they are:

1. Resubmit the site plan that shows the location of the foundation drain as required in condition 14.
4. Confirmation from Public Works that as-built data for the sewer and stormwater services has been submitted.

It is my opinion that a temporary certificate of occupancy could be issued assuming code enforcement has no outstanding issues.

BUILDING PERMIT REPORT

DATE: May 10, 1996 ADDRESS: 101 Country Lane

REASON FOR PERMIT: To construct a single family dwelling

BUILDING OWNER: Anastos and Lohnes

CONTRACTOR: Anastos & Lohnes APPROVED: SEE ITEMS 1, 7, 9, 10, 11, 13, 14, 15 & 16

CONDITIONS OF APPROVAL

1. Before concrete for foundation is placed, approvals from Inspection Services must be obtained. (A 24 hour notice is required prior to inspection)
2. Precautions must be taken to protect concrete from freezing.
3. It is strongly recommended that a registered land surveyor check all foundation forms before concrete is placed. This is done to verify that the proper setbacks are maintained.
4. All vertical openings shall be enclosed with construction having a fire rating of at least one (1) hour, including fire doors with selfclosers.
5. Each apartment shall have access to two (2) separate, remote and approved means of egress. A single exit is acceptable when it exits directly from the apartment to the building exterior with no communications to other apartment units.
6. The boiler shall be protected by enclosing with one (1) hour fire-rated construction including fire doors and ceiling, or by providing automatic extinguishment. Sprinkler piping serving not more than six sprinklers may be connected to a domestic water supply having a capacity sufficient to provide 0.15 gallons per minute, per square foot of floor throughout the entire area. An INDICATING shut-off valve shall be installed in an accessible location between the sprinkler and the connection to the domestic water supply. Minimum pipe size shall be 3/4 inch copper or 1 inch steel. Maximum coverage area of a residential sprinkler is 144 square feet per sprinkler.
7. Every sleeping room below the fourth story in buildings of Use Groups R and I-1 shall have at least one operable window or exterior door approved for emergency egress or rescue. The units must be operable from the inside without the use of special knowledge or separate tools. Where windows are provided as means of egress or rescue, they shall have a sill height not more than 44 inches (1118mm) above the floor. All egress or rescue windows from sleeping rooms shall have a minimum net clear opening height dimension of 24 inches (610mm). The minimum net clear opening width dimension shall be 20 inches (508mm), and a minimum net clear opening of 5.7 square feet.
8. A portable fire extinguisher shall be located as per NFPA #10. They shall bear the label of an approved agency and be of an approved type.
9. All single and multiple station smoke detectors shall be of an approved type and shall be installed in accordance with the provisions of the City's Building Code, Chapter 9, Section 19, 919.3.2 (BOCA National Building Code/1993) and NFPA 101, Chapters 18 and 19. (Smoke detectors shall be installed and maintained at the following locations):
 - a. In the immediate vicinity of bedrooms
 - b. In all bedrooms
 - c. In each story within a dwelling unit, including basementsIn addition to the required AC primary power source, required smoke detectors in occupancies in Use Groups R-2, R-3 and I-1 shall receive power from a battery when the AC primary power source is interrupted.

10. Private garages located beneath habitable rooms in occupancies in Use Group R-1, R-2, R-3 or I-1 shall be separated from adjacent interior spaces by fire partitions and floor/ceiling assembly which are constructed with not less than 1 hour fire resisting rating. Private garages attached side-by-side to rooms in the above occupancies shall be completely separated from the interior spaces and the attic area by means of 1/2 inch gypsum board or the equivalent applied to the garage side. (Chapter 4, Section 407.0 of the BOCA/1993)
11. Guardrail and Handrails-A guardrail system is a system of building components located near the open sides of elevated walking surfaces for the purpose of minimizing the possibility of an accidental fall from the walking surface to the lower level. Minimum height all Use Groups, 42 inches, except Use Group R which is 36 inches. In occupancies in Use Group A, B, H-4, I-1, I-2 M and R and public garages and open parking structures, open guards shall have balusters or be of solid material such that a sphere with a diameter of 4 inches cannot pass through any opening. Guards shall not have an ornamental pattern that would provide a ladder effect.
12. All exit signs, lights and means of egress lighting shall be done in accordance with Chapter 10, Section and Subsections 1023. and 1024. of the City's Building Code. (The BOCA National Building Code/1993)
13. Stair construction in Use Group R-3 and R-4 is a minimum of 9" tread and 8-1/4" maximum rise. All other Use Group minimum is 11" tread, and 7" maximum rise.
14. Headroom in habitable space is a minimum of 7'6".
15. The minimum headroom in all parts of a stairway shall not be less than 80 inches.
16. All construction and demolition debris must be disposed at the City's authorized reclamation site. The fee rate is attached. Proof of such disposal must be furnished to the office of Inspection Services before final Certificate of Occupancy is issued for demolition permit is granted.
17. Section 25-135 of the Municipal Code for the City of Portland states, "No person or utility shall be granted a permit to excavate or open any street or sidewalk from the time of November 15 of each year to April 15 of the following year".
18. The builder of a facility to which Section 4594-C of the Maine State Human Rights Act, Title 5 MRSA refers, shall obtain a certification from a design professional that the plans of the facility meet the standards of construction required by this section. Prior to commencing construction of the facility, the builder shall submit the certification to the Division of Inspection Services.
19. This permit does not excuse the applicant from obtaining any license which may be needed from the City Clerk's Office.

RE: 101 Country Lane

Dear Sir,

Your application to construct a single family dwelling has been reviewed and a permit is herewith issued subject to the requirements listed below. This permit does not excuse the applicant from meeting applicable State and Federal laws.

No Certificate of Occupancy will be issued until all requirements of this letter are met.

Site Plan Review Requirements

Building Inspections - The wetlands shown on the lot shall not be filled in without prior approval - M. Schmuckal

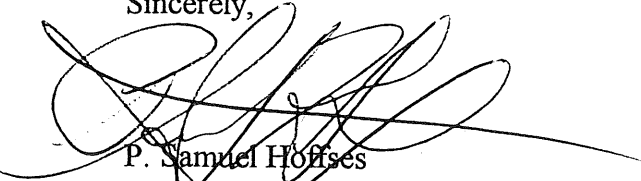

Development Review Coordinator - a) finished floor elevations of the house and garage shall be raised 6" to 104" and 102" respectively. b) please see attachment regarding erosion control and note #15. c) please read and observe disclaimer of existing poorly drained areas d) please see attached standard conditions e) foundation drain outlets shall be located to the front or rear, see note #14.

Building Code Requirements

Please read and implement items 1, 7, 9, 10, 11, 13, 14, 15 and 16 of the attached Building Permit Report.

If you have any questions regarding these requirements, please do not hesitate to contact this office.

Sincerely,

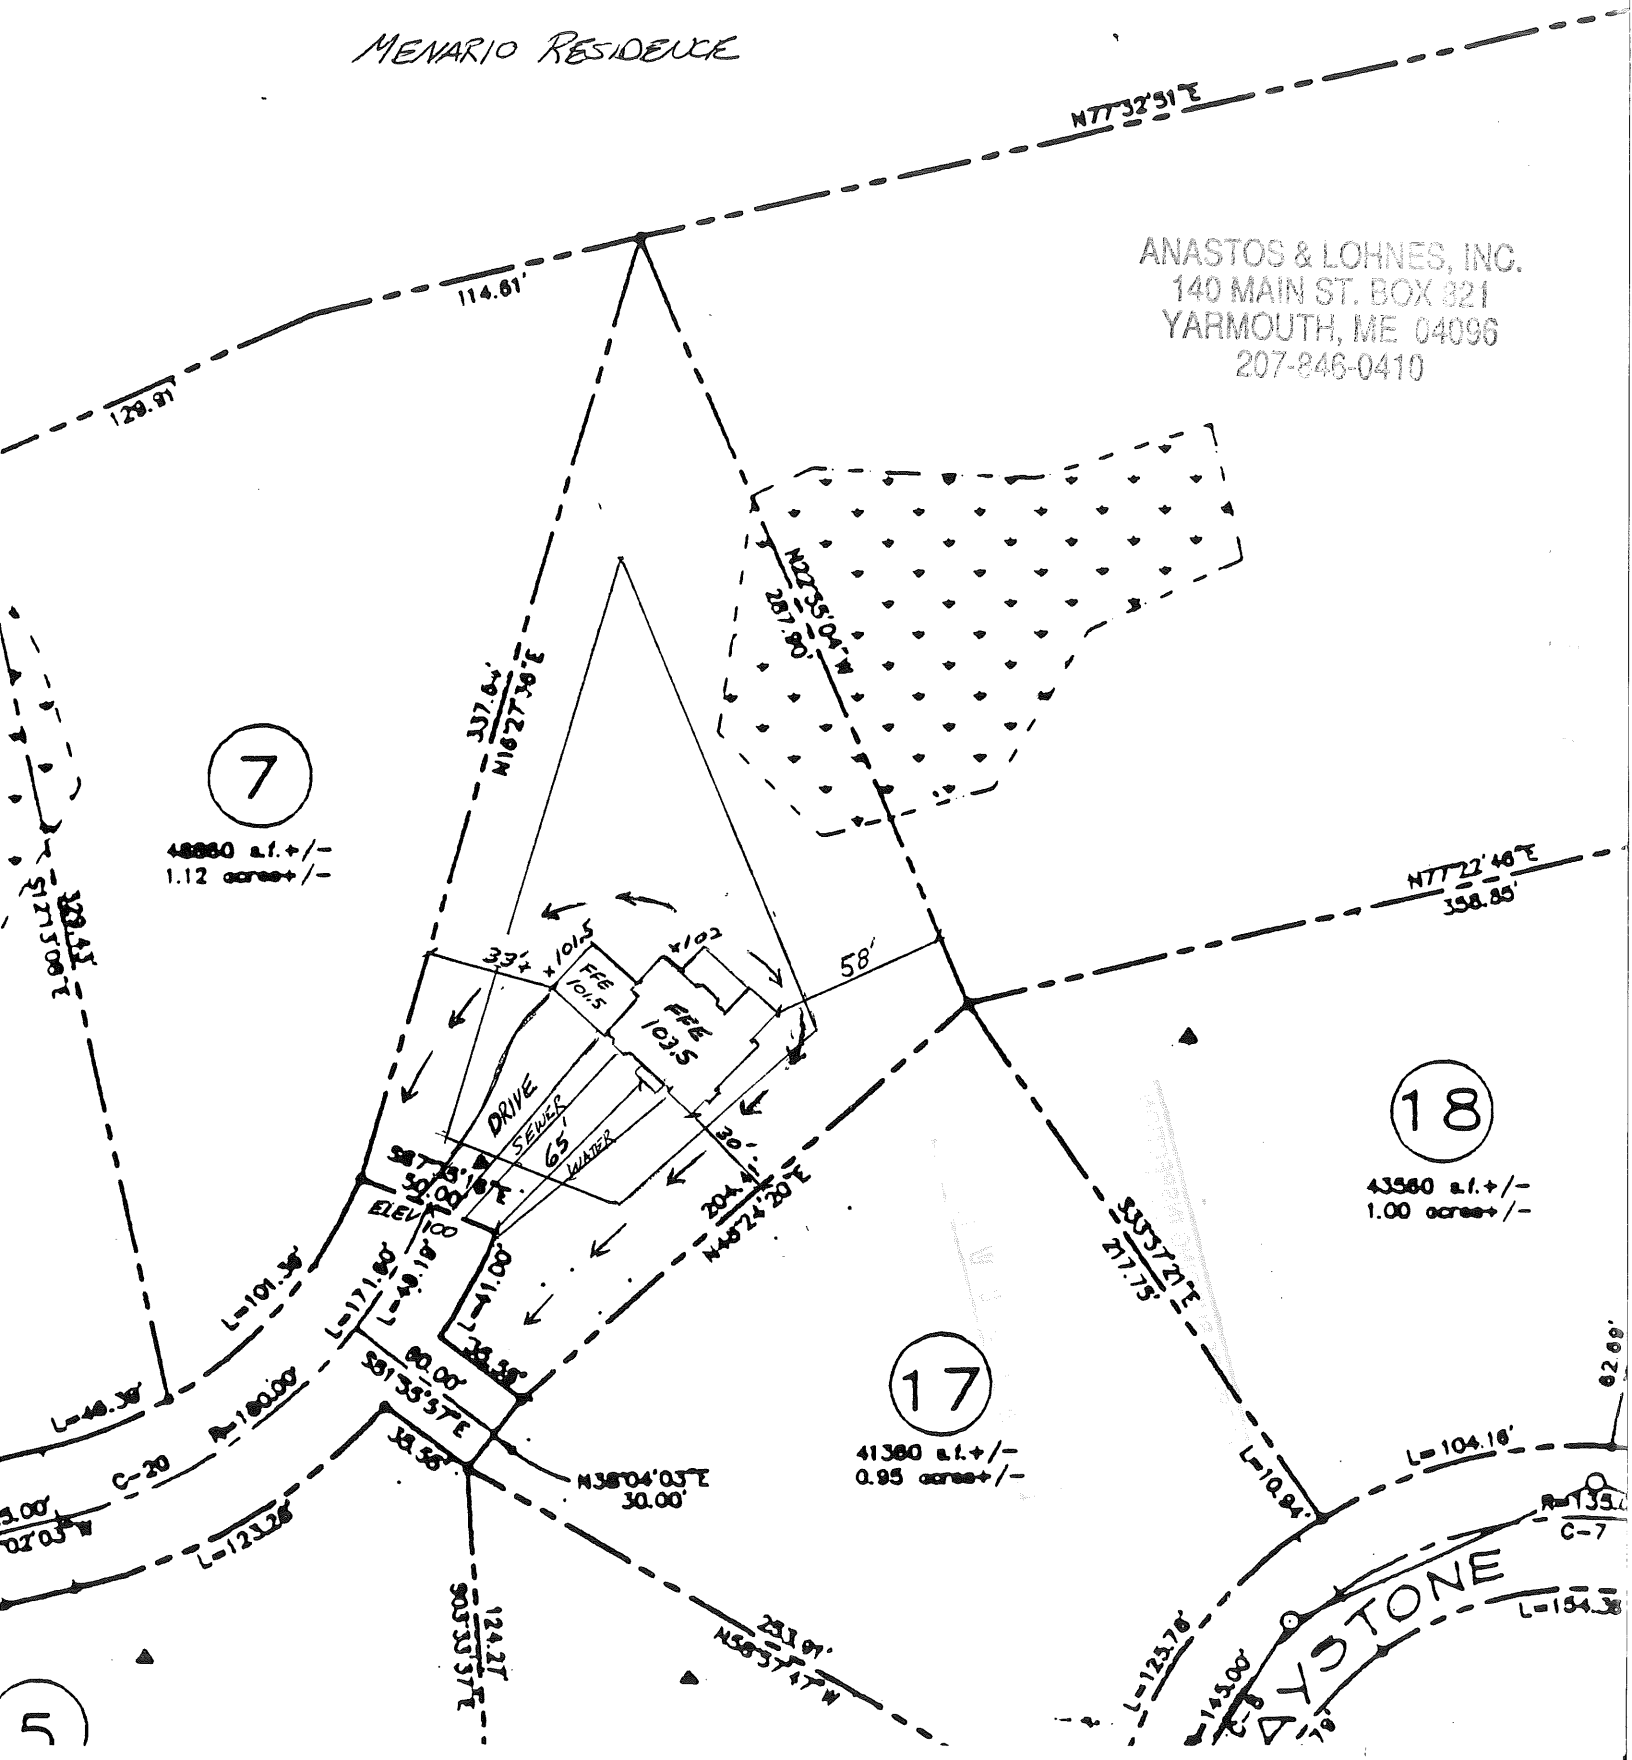

P. Samuel Hoffses
Chief, Code Enforcement Division

Address: 101 Country Lane LOT 6

CITY OF PORTLAND, MAINE
 SITE PLAN REVIEW (ADDENDUM)
 CONDITIONS OF APPROVAL

APPLICANT: ANASTOS & LOHNES
 ADDRESS: 140 MAIN ST YARMOUTH, ME 04096
 SITE ADDRESS/LOCATION: 101 COUNTRY LANE LOT 6
 DATE: 5/3/96

Review by the Development Review Coordinator is for General Conformance with ordinances and standards only and does not relieve the applicant, his contractors or agents from the responsibility to provide a completely finished site, including but not limited to: increasing or concentrating of all surface runoff onto adjacent or downstream properties, issues regarding vehicle sight distance, location of public utilities and foundation elevations.

CONDITIONS CHECKED OFF BELOW WILL BE ENFORCED FOR YOUR SITE PLAN

1. All damage to sidewalk, curb, street, or public utilities shall be repaired to City of Portland standards prior to issuance of a Certificate of Occupancy.
2. Two (2) City of Portland approved species and size trees must be planted on your street frontage prior to issuance of a Certificate of Occupancy.
3. Your new street address is now 101 COUNTRY LANE, the number must be displayed on the street frontage of your house prior to issuance of Certificate of Occupancy.
4. The Development Review Coordinator (874-8300 ext. 8722) must be notified five (5) working days prior to date required for final site inspection. Please make allowances for completion of site plan requirements determined to be incomplete or defective during the inspection. This is essential as all site plan requirements must be completed and approved by the Development Review Coordinator prior to issuance of a Certificate of Occupancy. Please schedule any property closing with these requirements in mind.
5. Show all utility connections: water, sanitary sewer, storm drain, electric, telephone, cable.
6. A sewer permit is required for your project. Please contact Carol Poliskey at 874-8300, ext. 8828. The Wastewater and Drainage section of Public Works must be notified five (5) working days prior to sewer connection to schedule an inspector for your site.

7. _____ A street opening permit(s) is required for your site. Please contact Carol Poliskey at 874-8300 , ext. 8828. (Only excavators licensed by the City of Portland are eligible.)

8. As-built record information for sewer and stormwater service connections must be submitted to Parks and Public Works Engineering Section (55 Portland Street) and approved prior to issuance of a Certificate of Occupancy.

9. _____ The building contractor shall check the subdivision recording plat for pre-determined first floor elevation and establish the first floor elevation (FFE) and sill elevation (SE) to be set above the finish street/curb elevation to allow for positive drainage away from entire footprint of building.

X 10. *See 13* The site contractor shall establish finish grades at the building foundation, bulkhead and basement windows to be in conformance with the first floor elevation (FFE) and sill elevation (SE) set by the building contractor to provide for positive drainage away from entire footprint of building.

X 11. *See 14* A drainage plan shall be submitted to and approved by Development Review Coordinator showing first floor elevation (FFE), sill elevation (SE), finish street/curb elevation, lot grading, existing and proposed contours, drainage patterns and paths, drainage swales, grades at or near abutting property lines, erosion control devices and locations and outlets for the drainage from the property.

12. The Development Review Coordinator reserves the right to require additional lot grading or other drainage improvements as necessary due to field conditions.

X 13. *The First Floor Elevation shall be set at elevation 104.0 as minimum and Sill Elevation shall be set at 102.0 Proposed drainage shall be in a buried manner away from the house foundation. The DR shall review final grading before final pouring and setting.*

cc: Katherine Staples, P.E., City Engineer

14. The applicant shall indicate the exact outlet location of the foundation drain. This should either be located to the rear or the front of the house with a positive grade. No outlet will be approved if it outlets to the side unless under unusually conditions

15. The applicant must protect both the bulkheads and the foundation with a street curb to prevent settlement.

APPLICATION FOR PERMIT FOR HEATING, COOKING OR POWER EQUIPMENT

Portland, Maine,

FILL IN AND SIGN WITH INK

960694

To the INSPECTOR OF BUILDINGS, PORTLAND, ME. 17 July 1996

The undersigned hereby applies for a permit to install the following heating, cooking or power equipment in accordance with the Laws of Maine, the Building Code of the City of Portland, and the following specifications:

Location 101 Country Way Use of Building 1-Fam No. Stories New Building Existing "
 Name and address of owner of appliance Anastos & Lohnes Yarmouth
 Installer's name and address Caron & Waltz Telephone
 321 Lincoln St So. PtId, ME 04106 799-2228
 General Description of Work
 To install Oil fired forced hot water heating system

IF HEATER, OR POWER BOILER

Location of appliance basement Any burnable material in floor surface or beneath? no
 If so, how protected? Kind of fuel? #2 oil
 Minimum distance to burnable material, from top of appliance or casing top of furnace 18"
 From top of smoke pipe 18" From front of appliance 18" From sides or back of appliance 18"
 Size of chimney flue 8" Other connections to same flue no
 If gas fired, how vented? Rated maximum demand per hour 105,000
 Will sufficient fresh air be supplied to the appliance to insure proper and safe combustion? Yes

IF OIL BURNER

Name and type of burner Beckett Labelled by underwriters' laboratories? Yes
 Will operator be always in attendance? no Does oil supply line feed from top or bottom of tank? bottom
 Type of floor beneath burner concrete Size of vent pipe 1 1/4"
 Location of oil storage basement Number and capacity of tanks 1-275
 Low water shut off yes Make OEM No. 170
 Will all tanks be more than five feet from any flame? yes How many tanks enclosed? none
 Total capacity of any existing storage tanks for furnace burners

IF COOKING APPLIANCE

Location of appliance Any burnable material in floor surface or beneath?
 If so, how protected? Height of Legs, if any
 Skirting at bottom of appliance? Distance to combustible material from top of appliance?
 From front of appliance From sides and back From top of smokepipe
 Size of chimney flue Other connections to same flue
 Is hood to be provided? If so, how vented? Forced or gravity?
 If gas fired, how vented? Rated maximum demand per hour

MISCELLANEOUS EQUIPMENT OR SPECIAL INFORMATION

Caron & Waltz Master Oil Burner #005529
 Cost of Work: 7,000.00 55.00

Amount of fee enclosed?
