Kouba – Tevanian General Building Permit Application
63 Graystone Lane
171-A-A-16
Basement Space Finishing

Permit Application Kouba

General Building Permit Application for the project.

Signature Fee Payment Kouba

Signature page and method of paying application fee.

A1 Existing Floor Plan

Existing floor plan of the current, unfinished basement space.

A2 Proposed Floor Plan

Proposed floor plan of the basement space when finished.

A3 Miscellaneous Details-1 (Bathroom Detail, Stair Clearance)

This drawing provides cross-section of the raised floor of the bathroom to accommodate the up-flush mechanism for wastewater and a cross-section of the existing stairs, showing conformance with minimum height requirements.

A4 Miscellaneous Details-2 (Sewer Outflow Locations)

This drawing illustrates the location of sewer outflows that hang below the existing beams, labeled S1 and S2. These pipes must be enclosed in a build-out that will extend below the finished ceiling, and which will have a total height of no more than 83 inches (6-feet, 11-inches) for S1, and 81 inches (6-feet, 9-inches) for S2 in the finished space.

A5 Miscellaneous Details-3 (Cross-Sections, Sewer Outflow Enclosures)

This drawing illustrates the proposed enclosures that will hide the sewer outflow pipes, and which will have a total height of no more than 83 inches (6-feet, 11-inches) for S1, and 81 inches (6-feet, 9-inches) for S2 in the finished space (see A4 Miscellaneous Details-2 for location and identification.).

G1 Index

List of documents and illustrations.

G2 General Notes

Overview of the project, discussion of height requirements, information on conformance of existing stairs, discussion of energy code requirements.

LS1 Life Safety Plan

Life safety plan for the finished space.
