Attachments: Sign Concepts QUOTE.pdf

Hi Ann,

In my original paperwork submitted, I included our quote from Sign Concepts. You may have that document already, however, I attached it again in PDF format for your review, just in case. In the first ½ of this quote under "Non-Taxable Items & Labor" is a description of how the sign is being mounted in the ground. It looks like they will be doing a small excavation, setting a cedar wood post in concrete and attaching a steel bracket and sign panel to the cedar wood post itself. In the second ½ of the quote, "Taxable Items & Labor" Sign Concepts describes the hardware that will be used to accomplish this task, wrought iron sign bracket, vinyl graphics, etc. I called Sign Concepts, and what the actual sign panel will be made out of is alupanel, a sign with a plastic inside and aluminum on each end. If you need more information than this, please just let me know what kind of documentation is necessary.

Thank you,

Katie

Subject: 1023 Washington Ave. - Permit #2013-02387 - sign

Katherine -

I have completed my review for zoning for the sign. I need some information before I can sign off on the permit. I need to know what the sign is made out of, how it is being attached and how it is being mounted in the ground.

Please email the information directly to me.

Thank you.

Ann Machado
