Per our discussion, you said this would be enough to add to my existing permit application.

Please let me know if you need anything else from me to move this forward.

Utility Approvals Number Contact Name/Date

1. Central Maine Power 1-800-750-4000 - will be out in 2-3 days
2. Unutil 1-207-541-2533 - Mark Allen 1/4/2015
3. Portland Water District 761-8310 - Katie L. 11/4/2015
4. Dig Safe 1-888-344-7233 #20154507368 11/4/2015 Elysia (all utilities will be out within 72 hours from today)
5. DPW/ Traffic Division 874-8891 - Left message

Oh I have to fill out the call sheet?

I thought that was more of a checklist for me.

Kendra, This permit came back blank too, but you do need to provide all the documentation required on the checklist and the call sheet.

 Let me know what else you need from me.

These are all good for 6 months correct?

You can combine the permits into 1 building permit, however, the items required in the demo permit are also required in the building permit.

Then a demolition permit is required.

>>> Kendra Jarratt <kendrajarratt@gmail.com> 11/4/2015 11:07 AM >>>
We will have to tear it down completely to put the frost wall in.

Kendra, it states on your application you intend on tearing down an old structure; are you intending on tearing it completely down, or just internal?

Won't get far without that I suppose.

Thanks in advance for your time.

Kendra

Hi, unfortunately the application came to us blank.

Please accept this application and attached plans for a building permit.

The job is to 1) Excavate the existing structure which is sinking as the garage and breezeway are currently built on a slab, 2) Put in a 4ft frost wall, 3) Build new insulated mudroom and garage.

The new structure meets the setback requirements on the property.

Thank you in advance,

Kendra
