Subject: RE: **Issued Permit** # 2014-02495

Per the plans submitted; there are no permanent footings. The ramp modular system sits on Pressure Treated Pads per the definitions of Alpha One's Critical Access Program. We do not pour concrete nor use other permanent ground fixtures with this design.

Thank You,

Candace Scripture

Candace, your first inspection is footings and setbacks prior to pouring concrete...Then you have your final. I can schedule you the footings/setback inspection for Friday as requested, but once that inspection is complete, then you can contact us for the final. PS: when are you going to pour the footings? You will need to schedule the inspection prior to that time. Please respond back when you want to schedule your first inspection.

To Whom It May Concern;

Per the instructions on the Permit issued, I am notifying you that we will be installing the ADA ramp this Friday, October 31 between 8:15-1:30. Please feel free to contact me.

Here is your issued permit. Thank you. **NOTE:**

One set of printed approved construction documents shall be kept at the site of work and shall be open to inspection by building officials. (*Section 107.3.1 of the Maine Uniform Building and Energy Code (MUBEC).*)

Notice: Under Maine law, documents - including e-mails - in the possession of public officials or city employees about government business may be classified as public records. There are very few exceptions. As a result, please be advised that what is written in an e-mail could be released to the public and/or the media if requested.
