

Outdoor Unit
 Located on northern gable end of home and supported by a bracket attached to the wall framing members.

Weight of unit is 88 lbs. Minimum of 4 3" stainless steel lag bolts to attach bracket.

Indoor Unit
 Located in the first floor of the home in the dining area on the exterior wall.

Weight of unit is 22 lbs. Unit to be mounted to wall framing with 2.5" fasteners sufficient to support the unit.

Notes:
 Home is built of traditional wood framing and is sufficient to support the additional load of the equipment being installed.
