RE: *Boseman House*  
TEA Project No.: 2013-049

Bob Bower

Dear Bob:

I have reviewed the 4 photos you sent me by e-mail on 1/24/14 of the framing at the Bozeman house at 140 Bolton Street, Portland. Based on these photos, it appears you have complied with my drawing regarding the roof framing required to support the ridge beam.

Very truly yours,

Taylor Engineering Associates

A handwritten signature in cursive script, appearing to read 'Bruce Haskell', is written over a faint circular stamp.
