Subject: shed application for 160 Massachusetts Ave

Hi Marlene,

I am in receipt of your permit to erect a 10' x 12' shed at the rear of your property. Please note that sheds less than 144 square feet in size must be at least 5' to the rear and side property lines. Your plot plan shows that your shed will be closer than that minimum 5 foot. I can not issue you a permit at that setback shown. Your permit is on hold until I can receive a revised plot plan showing that you will be at least 5 foot from the rear and side property lines.

If you have any questions on this matter, please do not hesitate to contact me at 874-8695.
