Linda -

I have signed off on the permit for zoning and moved it forward in the review process. The site plan states that the foundation for the garage is located 25' from the front property line. Since this is right on the setback line it will need to be verified in the field at the first inspection.

I also want to make sure that you have contacted Public Works (874-8822) to obtain a street opening permit for the new curb cut.

Please let me know if you have any questions.

Ann
