

**Asbestos Building Demolition Notification**

State of Maine  
Department of Environmental Protection  
Lead & Asbestos Hazard Prevention Program  
17 State House Station, Augusta, ME 04333  
TEL (207) 287-2651 FAX (207) 287-6220

**FORM D**

Page 1 of 2  
2015

**Notice**

Prior to demolition, building owners must determine if there is any asbestos-containing material(s) (ACM) in the building. An "asbestos inspection" by a MDEP-licensed Asbestos Consultant is required for all buildings regardless of construction date, except single-family homes and residential buildings with 2-4 units built after 1980. In lieu of an asbestos inspection, pre-1981 residential buildings with 2-4 units can be surveyed to identify possible ACM by someone knowledgeable about ACM, such as a code enforcement officer or building inspector.

If your project involves the demolition of a single family residence or a residential building with less than 5 units, please answer the following questions to determine whether you need to have your inspection performed by a MDEP-licensed Asbestos Consultant:

- Does this demolition/renovation project involve more than ONE residential building at the same site with the same owner?  Yes  No
- Is this building currently being used, or has it **EVER** been used, as a commercial, government, daycare, office, church, charitable or other non-profit place of business?  Yes  No
- Is this building to be demolished as part of a highway or road-widening project?  Yes  No
- Is this building part of a building cooperative, apartment or condo building?  Yes  No
- Is this building used for military housing?  Yes  No
- Have other residences or non-residential buildings at this site been scheduled to be demolished now, or in the future, as part of a larger project?  Yes  No
- Is more than ONE building to be lifted from its foundation and relocated?  Yes  No
- Will this building be intentionally burned for the purpose of demolition or fire department training?  Yes  No

**If you answer "no" to all the questions above, your building can be inspected by a knowledgeable non-licensed person as applicable.**

**Any "yes" answers to the above questions requires an inspection by a MDEP-licensed Asbestos Consultant.**

**Important Notice**

Before you can demolish any building, including single-family residences, all asbestos materials must be removed from the building. The removal of those materials must be done by a MDEP-licensed Asbestos Abatement Contractor, except single-family homeowners may remove some asbestos under certain circumstances (Contact MDEP for more information).

With the exception of a single family home, building owners are required to submit the Asbestos Building Demolition Notification to the MDEP at least five (5) working days prior to the demolition **EVEN IF NO ASBESTOS** is present.
