Subject: Test and flush water sewer

Kirk,

Last fall Shaw Brothers flushed/pressure tested the water & fire service and pressure tested the sewer service. This was done under the supervision of the Portland Water District and each of these services passed.

Thanks,

Chris Dyer

Subject: Test and flush water sewer

Jim and or Chris:

Your pricing included the cost for test and flush of both water and sewer as well as chlorination of water. Can you please send me something for the City's C of O inspection. I am putting a binder together with the testing paperwork and do not believe I have either of these yet.

Thanks,

Kirk Goddard
