| <b>Conditions:</b>  |                                      |  |  |   |
| 1) Hardwired photoelectric interconnected battery backup smoke detectors shall be installed in all sleeping rooms, protecting outside these rooms, and on every level.  |                                      |  |  |   |
| The same is required for existing buildings, where permanent wiring is feasible; or at the very least battery operated smoke detectors are required. Verification of this will be upon inspection.  |                                      |  |  |   |
| 2) Carbon Monoxide (CO) alarms shall be installed in each area within or giving access to sleeping rooms. That detection must be powered by the electrical service (plug-in or hardwired) in the building and battery.  |                                      |  |  |   |
| 3) Separate permits are required for any electrical, plumbing, sprinkler, fire alarm, HVAC systems, heating appliances, including pellet/wood stoves, commercial hood exhaust systems, fire suppression and fuel tanks. Separate plans may need to be submitted for approval as a part of this process. |                                      |  |  |   |
| 4) This permit is approved based upon information provided by the applicant or design professional. Any deviation from the final approved plans requires separate review and approval prior to work.  |                                      |  |  |   |
