Permit Taken By: Mary Gresik		Date Applied For: 04 June 1996					

1. This permit application doesn't preclude the Applicant(s) from meeting applicable State and Federal rules.
2. Building permits do not include plumbing, septic or electrical work.
3. Building permits are void if work is not started within six (6) months of the date of issuance. False information may invalidate a building permit and stop all work..

CERTIFICATION

I hereby certify that I am the owner of record of the named property, or that the proposed work is authorized by the owner of record and that I have been authorized by the owner to make this application as his authorized agent and I agree to conform to all applicable laws of this jurisdiction. In addition, if a permit for work described in the application issued, I certify that the code official's authorized representative shall have the authority to enter all areas covered by such permit at any reasonable hour to enforce the provisions of the code(s) applicable to such permit

MONACO

There are certain rare moments when metal transcends its function and approaches the status of art. This is so well seen in the classic styling of the Monaco, where all the ingredients have been hand-crafted into a timeless state of art.

Yet, the Monaco has been carved out of a long line of family pools, that have a reputation for superior construction and functional excellence. The secret is Monaco's heavy 110 hot-dipped galvanized steel construction, plus the glamorous protective layer of textured vinyl, laminated to the frame and wall. Nothing can match the beauty of the 3-color architectural grey vertical motif patterned wall. Lasting protection is added with a textured 4-mil vinyl to the top of the pool wall. This coloration is highlighted with a textured Stardust Grey vinyl finish on the top seats.

Only by owning this uncommon blending of art and craftsmanship can one fully appreciate its superior qualities. The Monaco is a handsome conclusion of years of engineering.
