Re: 20 Benjamin Way – Portland, ME – Fire Sprinkler System Installation

Fire Prevention:

Systematic Sprinkler Company has completed the installation of an NFPA 13D compliant residential fire sprinkler system at 20 Benjamin Way in Portland, ME. The system was tested, inspected and was left in service with all control valves left in the “open” position. The installation was found to meet the minimum design requirements for NFPA 13D and was installed as per the approved plans. Please note that the owner is responsible for yearly inspection and testing as required by NFPA 13D.

Sincerely,

A handwritten signature in black ink that reads "Jeffrey Denis". The signature is written in a cursive, flowing style.

Jeffrey Denis, CET
