Director, Portland Public Health Services
389 Congress Street
Portland, ME 04101

Dear Dr. Bankhole:

Thank you for your assistance in resolving the rat infestation on Riverview Street.

I have enclosed photocopies of my exterminator's reports. As he noted at the initial inspection, there is a definite rat trail and burrow hole to and under the canvas outbuilding on the property bordering my backyard. My exterminator confirmed at his October 1, 2018, inspection that the rat path/trail is still very active. Also, although we are no longer seeing them during the day, the rats are very active eating bait at night.

I look forward to hearing from you.

Regards,

Rosemary J. Shaw
