

Final Report of Special Inspections

Project: *MFC Portland – Maine Fiber Co. Facility*
Location: *9 Westland Ave. Portland ME*
Owner: *Maine Fiber Company*
Engineer of Record: *Derek J. Creaser, P.E.*
Hudson Design Group, LLC.

To the best of my information, knowledge and belief, the Special Inspections required for this project have been performed and all discovered discrepancies have been reported and resolved.

Representatives of Hudson Design Group LLC performed the Inspections during the construction of the Maine Fiber Co. facility at the above-referenced address. The Final Inspection was conducted on 1/9/2017.

Comments: Based on my knowledge, information and belief the completed Installation substantially conforms to the approved plans, IBC 2009, the equipment manufacturer's installation guidelines, and the following:

1. Maine Fiber Co. Drawings dated 4/4/16, prepared by Hudson Design Group, LLC, entitled "MFC Portland".
2. Rip rap, check dams, and plantings were not considered as part of this Special Inspection. These items were designed by others and are scheduled to be completed in the spring of 2017.

All deviations from the approved plans do not endanger the intended occupancy of the facility and equipment substitutions are approved as equivalent to the original specifications.

Interim reports submitted prior to this final report form a basis for and are to be considered an integral part of this final report.

Respectfully submitted,
Special Inspector

Derek J. Creaser, P.E.
