Footnotes: [a.] Single-family well setbacks may be reduced as prescribed in Section 701.2.

[c.] Additional setbacks may be needed to prevent fill material extensions from encroaching onto abutting property.

[d.] Additional setbacks may be required by local Shoreland zoning.

[g.] The fill extension shall reach the existing ground before the 3:1 slope or within 100 feet of the disposal field.

| [n.] See Section 1402.10 for special procedures when the | hese minimum setbacks cannot be achieved. |
|--|---|
|--|---|

| h.] See Section 1402.10 for special procedures when these minimum setbacks cannot be achieved. | | |

DATE

[[]b.] This distance may be reduced to 25 feet, if the septic or holding tank is tested in the plumbing inspector's presence and shown to be watertight or of monolithic construction.

[[]e.] Natural Resource Protection Act requires a 25 feet setback, on slopes of less than 20%, from the edge of soil disturbance and 100 feet on slopes greater than 20%. See Chapter 15.

[[]f.] May not be any closer to neighbors well than the existing disposal field or septic tank unless written permission is granted by the neighbor. This setback may be reduced for single family houses with Department approval. See Section 702.3.
