If the owner elects to determine Cost of the change work by unit prices and the nature of the work is such that its extent cannot readily be measured after the completion of such work or any subsequent work, the Contractor shall keep daily records, available at all times to the Owner for inspection, of the actual quantities of such work put in place, and delivery receipts or other adequate evidence, acceptable to the Owner, indicating the quantities of materials delivered to the site for use in such unit price work, and distinguishing such from other similar material delivered for use in work included in the base Contract Sum. If so required by the Owner, materials for use in unit price work shall be stored apart from all other materials on the Project.
