I reviewed the email attachments, but could not access the Dropbox files. To keep the ball rolling, I would be fine if you wish to communicate directly to the SHPO and indicated we (FAA and PWM) feel the GA Terminal is not eligible for listing. If there are any meetings with the SHPO please let me know beforehand. CC me on any emails or correspondence. The SHPO may indicate the need for a public meeting, as the Section 106 Regs require an opportunity for public input. Be ready for that.

**Subject:** PWM GAT 1628-15

I sent two installments of files. If I'm lucky you should also get three Dropbox links which will lead you to photos and drawings that were and will be attached as "additional information" to the MHPC submission. Please send me a quick e-mail to let me know what you received. If I was unsuccessful I will try some other means.

Thanks for your patience.

Regards,

Malcolm L. Collins AIA, NCARB, LEED AP
