

***Tent will be powered with (2) DCA45SS Towable Generators. Distribution panels will be tied into the generators by master electrician Steve Lambert. Exit Signs have emergency lights and battery backup. They will be install at all (3) entrance/exits. See Generator specs below.

<http://www.multiquip.com/multiquip/DCA45SSIU4F.htm>

5. Display the width of all egress openings in all tents, aisle widths and detail that the exit access travel distance to an exit does not exceed 100'.

I will send a specific diagram addressing this
