

ClassicFlame 18-In SpectraFire Infrared Electric Fireplace Insert - 18II033FGL

The ClassicFlame 18" SpectraFire™ infrared Fireplace Insert is an affordable, compact firebox that is loaded with features. The Spectrafire™ flame effect allows you to choose from 2 flame colors (traditional orange and Spectrafire blue/orange) as well as 3 brightness levels. The resin logs and glowing ember bed are designed to add to the realistic effect as well. This firebox features a multi-functional remote control and a digital thermostat readout that fades away after four seconds. To make things even easier for you, this electrical fireplace includes an auto shutoff setting. You can set it from 30 minutes to 9 hours and then it will take two minutes to fade to blackness for a more realistic effect. You will be able to relax in your family room or living room and enjoy ambiance and warm heat. This firebox will offer supplemental infrared heat for up to 1000 square feet of space making the fireplace ideal for nearly any space including recreational vehicles.

The compact design, the supplemental heat source, and the realistic flame effects appeal to customers the most with this fireplace insert. Additionally, people who have bought it enjoy the instant heat, the easy set up and the quiet operation.
