RE: Forefront at Thompson's Point Temporary Event Parking Plan

Jim,

Attached is our staffing guide for events at Thompson's Point for 2000+ attendees.

We are confident that through active management and direction, we will be able to park in excess of 800 vehicles on site.

Additionally, we have been granted access to use the overflow lot located on the Mercy hospital grounds, that can accommodate an additional 400 vehicles.

We are also have access to additional overflow space located off of St. John St. that will accommodate an additional 400 vehicles.

Please review the below attachment and do not hesitate to contact me with any questions or comments.
