Hi Soleil,

Quick question the the layout plan for Sunaana - the outdoor plan shows shipping containers being used around the outdoor ice bar area. Are these shipping containers already on site? Are they just being used as a barrier or will people be entering them?

Thanks,
Chris

Hey Chris,

These will be the containers we already use onsite with the concerts and ice rink as a barrier with the exception of 2 refrigerated containers that will be cold *storage* only. These 2 containers will come in for the event and leave after the event. Please feel free to reach out with any further questions.
