

To Whom It May Concern:

We will be using 19, 170 BTU heaters that will sit eleven feet away from the perimeter of the tent and will duct into the tent with vent units. As well as four, 80 BTU heaters that will follow the same guidelines. These heater run off propane and are driven by and electric fan that are linked into our thermostat system. Attached will be stand alone propane tanks.

WALLACE EVENTS

Tyler Palmer / Estimator – Project Manager

A handwritten signature in black ink, appearing to read 'Tyler Palmer'. The signature is fluid and cursive, with the first letters of the first and last names being capitalized and prominent.
