Hi Barbara,

Can you please give me a status on gas discontinuance at the Delta Airlines cargo building to be demolished?

We did the pre-demolition inspection today.

Thanks

Hi Greg,

Just want to make sure you are all set with the demolition of the Delta Airlines cargo building. This is a slab on grade and Costello Dismantling says they will cap the building drain and it will be discontinued. We noticed there is a sewer manhole just outside, I believe, the north side of the building.

Thanks

re: Portland Jetport – Portland, Maine– Visual Evaluation & PCM Clearance / #09 - 0134

Dear Mr. Giberson:

Please find attached the project report for the asbestos abatement activities conducted on September 4, 2009 in the office area of the former Delta Air Freight Building located in Portland, Maine.

MidCoast Environmental, Inc. performed a visual evaluation and an aggressive PCM air-clearance sampling for the approximately 870 square feet of asbestos-containing floor covering and mastic. The mastic is to be removed using a chemical remover. The final visual evaluations and clearance sampling were conducted in accordance with the Maine State Department of Environmental Protection's Asbestos Management Regulations Chapter 425-section 8 (A) and (B). The final analytical results met the criteria set forth by the Maine Department of Environmental Protection for the re-occupancy of the work area by unprotected personnel (≤ 0.010 f/cc).

The project report includes the Daily Field Report, PCM Analytical Data, Final Visual Evaluation Checklists, Certificates of Re-occupancy, and sampling diagrams for your records.

Should you have any further questions, please contact us at (207) 837 – 0564.

Sincerely,
MidCoast Environmental, Inc.

INSTRUCTIONS

Waste Generator Section (Items 1 - 9)

1. Enter the name of the facility at which asbestos waste is generated and the address where the facility is located. In the appropriate spaces, also enter the name of the owner of the facility and the owner's phone number.
2. If a demolition or renovation, enter the name and address of the company and authorized agent responsible for performing the asbestos removal. In the appropriate spaces, also enter the phone number of the operator.
3. Enter the name, address, and physical site location of the waste disposal site (WDS) that will be receiving the asbestos materials. In the appropriate spaces, also enter the phone number of the WDS. Enter "on-site" if the waste will be disposed of on the generator's property.
4. Provide the name and address of the local, State, or EPA Regional office responsible for administering the asbestos NESHAP program.
5. Indicate the types of asbestos waste materials generated. If from a demolition or renovation, indicate the amount of asbestos that is
 - Friable asbestos material
 - Nonfriable asbestos material
6. Enter the number of containers used to transport the asbestos materials listed in item 5. Also enter one of the following container codes used in transporting each type of asbestos material (specify any other type of container used if not listed below):
 - DM - Metal drums, barrels
 - DP - Plastic drums, barrels
 - BA - 6 mil plastic bags or wrapping
7. Enter the quantities of each type of asbestos material removed in units of cubic meters (cubic yards).
8. Use this space to indicate special transportation, treatment, storage or disposal or Bill of Lading information. If an alternate waste disposal site is designated, note it here. Emergency response telephone numbers or similar information may be included here.
9. The authorized agent of the waste generator must read and then sign and date this certification. The date is the date of receipt by transporter.

Transporter Section (Items 10 & 11)

10. & 11. Enter name, address, and telephone number of each transporter used, if applicable. Print or type the full name and title of person accepting responsibility and acknowledging receipt of materials as listed on this waste shipment record for transport. Enter date of receipt and signature.

NOTE: The transporter must retain a copy of this form.

Disposal Site Section (Items 12 & 13)

12. The authorized representative of the WDS must note in this space any discrepancy between waste described on this manifest and waste actually received as well as any improperly enclosed or contained waste. Any rejected materials should be listed and destination of those materials provided. A site that converts asbestos-containing waste material to nonasbestos material is considered a WDS.
13. The signature (by hand) of the authorized WDS agent indicates acceptance and agreement with statements on this manifest except as noted in item 12. The date is the date of signature and receipt of shipment.

NOTE: The WDS must retain a completed copy of this form. The WDS must also send a completed copy to the operator listed in item 2.
