

8/1/2013

Letter of explanation

Greetings,

On this thumb drive you will find 7 pages of drawn plans for a 2 car garage with an accessory apartment to be attached to my existing home at 110 Cobb Ave. with a new breezeway entrance.

Along with those plans I have included a copy of the zoning board conditional use grant and copies of the application which I also turned in paper copies with my full application payment and a copy of the current deed to the property.

If I am able to be approved for a building permit, my plan is to get started in September with an ultimate goal of being done by the first of the year 2014. I do plan to build the structure myself with the help of friends and then subcontract with licensed contractors for the foundation, plumbing & heating, and electrical work. Either I or the contractors will be pulling the appropriate permits as the work flow demands them.

Please let me know if I have missed anything, I will make it a priority to meet any requests as quickly and efficiently as is possible.

Sincerely,

Tim Raymond
