Hi Christina -

I have noticed what looks like two possible Shoreland Zone violations along the Fore River in the Stroudwater area.

The first one is at 11 Garrison Street Extension, property owned by James Ward, considerable vegetation cleared down to the water line near where the Stroudwater River meets the Fore River, see photo. All the tree vegetation is still on site.

Across the river at 139 Fenway Street, property owned by Robert Brooks & Michele Dorsey it looks like vegetation has been removed and clearing or lawn being installed? It looks different then it did last time I was there a year ago. It was hard to tell what this site looked like before, but recall it was vegetated more then it is today, so this one is more of an inspection visit.

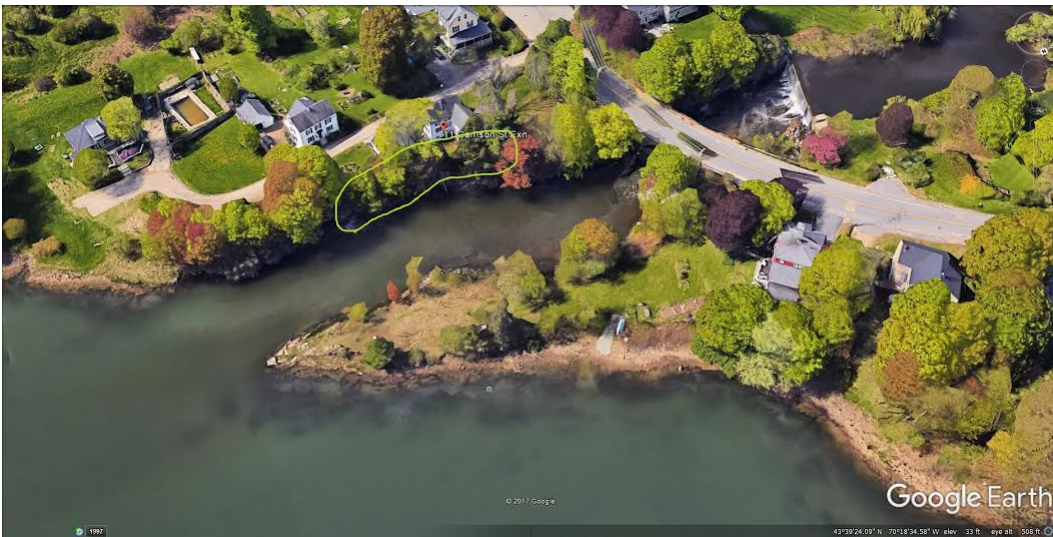

Thanks -

Jeff
