 - c. Level 2
 - i. 53,837 SF – Life Safety LS02.102 dated 08/18/2017

Scope of work –

The renovations at Unum will consist of three phases. Phase 1, included in this permit application, includes the renovation Level 1, Level 2 and a small area of the Ground Level of Unum HO2 with a square footage as noted above. The selective demolition scope of work associated with this phase will primarily include removal of all ceilings, flooring, a portion of interior non-load bearing walls, HVAC registers, grilles and diffusers, select receptacles and all lighting within the demo area. Existing data jacks and cabling will be removed in preparation for new components that will be provided during the construction of this phase. The demolition scope will also include the removal of a band of architectural precast façade to allow for installation of new windows. Temporary lighting and HVAC protection will be put in place until permanent finishes are installed during the construction of this phase.

Phases 2 and 3 will be issued under a separate permit application.
