Scope of work –

The occupied renovations at Unum for this portion of work will occur on Levels 1-4 of HO3. The scope will include selective demolition of the existing area, the addition of new drywall partitions with glass office fronts, new finish carpentry, new flooring, new ceilings, new light fixtures, electrical, tel/data, HVAC grilles and diffusers. This also includes new plumbing at select areas to support the new spaces. The life safety systems will be re-worked to accommodate the new floor plan and finishes.

The work associated with HO3 will be submitted under a separate permit application.

State Fire Marshall Permit –

After review with the code enforcement office, it was confirmed that the building permit and State Fire Marshall Permit reviews will happen in parallel. The SFM permit will be provided to the code enforcement office upon receipt.

Fast Track Demolition – Schedule B

An application for a fast track demolition permit may be submitted at a later date if it appears that the overall permit will not be received in time to start work.
