Hi,

Attached are the work description letter, state permit and City of Portland Permit application in PDF format for the Elk's Lodge 2017 Renovations. We spoke with the state fire marshal about this project and where this was an existing building and sprinkler system (pipe schedule) that was just having sprinkler heads relocated and replaced and a new line for the new storage addition in the back, they would except a letter describing the new work to be performed and not require a shop drawing.

Please contact us with any questions.

Thank you,

Tod Pray
