3. Any alteration or deviation from the above contractual specifications that results in a revision of the contract price will be executed only upon the parties entering into a written change order. Change orders signed by Buyer will prevail after construction has begun. Any dollar amounts over original contract amount shall be due prior to transfer of title in form of bank or certified check. This includes allowances, change orders, and changes to plumbing package. Any errors in amounts due either party discovered after transfer of title shall become an amount immediately due and payable to the party owed. This agreement shall survive closing.

4. Changes to the Standard Plumbing Package may be made as follows:

If the customer wishes to view or change any item in the Standard Plumbing Package per Exhibit C, they must make an appointment at Redlon Johnson. This should be done as soon as possible after the effective date of this contract to avoid construction delays. You will be asked to give the name of the plumber in order to get an appointment. Please call the office at 772-0657 for the name of the plumber. Buyer shall pay for any costs associated with delays in construction or completion date as a result of changes to the standard plumbing package.

If any item in the Standard Package per Exhibit C is changed, then the retail dollar amount of the standard package shall become an allowance to be credited against the retail cost of the actual order. **Any increase in the number of fixtures shall also incur an additional charge for labor.**

Any plumbing items or fixtures not supplied by the plumber or Redlon Johnson, shall incur an additional labor charge; and/or, the Buyer shall receive a credit for only the Plumber's cost for the item which is no longer being supplied by the Plumber; e.g., marble top sinks supplied by kitchen supplier.

Do not order shower doors through Redlon Johnson--the Plumber does not install glass doors. We recommend Glass Mirror Services [797-9404].

5. Ledge removal is not included. All costs for ledge removal shall become an additional amount due Seller prior to/or at transfer-closing.

6. Grading and the amount of fill needed shall be determined by Seller and shall be based upon providing adequate drainage away from foundation and coverage of foundation to meet municipal code.

7. Buyer is hereby notified that a construction site is extremely dangerous. As such, Buyer agrees that if he or she or any one in their company enters the premises during construction they are

doing so at their own risk and that Seller shall not be held liable for any injuries sustained. Buyer further agrees that under no circumstances are any children under age 18 allowed on the premises during construction. No failure of Seller to enforce any of the above term hereof shall be deemed a waiver.

- 8. Seller reserves the right to approve any selections made by Buyer for allowance items. Unauthorized selections shall not be paid for by Seller and shall not be covered by the warranty applicable to this contract.
- 9. Seller does not install lawns. Seller installs only the initial single application of loam and seed required to start a lawn. All other additional needs and requirements for the establishment of a healthy lawn shall be the sole responsibility of the Buyer. This shall include but not be limited to the following:

- watering
- fertilizing
- re-seeding/re-looming for areas that did not take
- straw/hay removal

Under no circumstance shall Seller be liable for damage to loam and seed due to reasons beyond the control of Seller such as weather. In the event damage does take place due to reasons beyond the control of Seller and prior to release of any applicable escrowed funds covering loam and seed installation, the cost for repair shall become an additional amount owed to Seller. Seller reserves the right to not install loam and seed any time after October 1 and prior to May 31 of a given year, and during the months of July and August. This agreement will survive closing and supersede any escrow agreements subsequently entered into by either party. If Buyer does not have knowledge of, or experience in proper lawn care, Seller recommends use of a professional lawn maintenance company.

- 10. Not applicable.
- 11. PLEASE BE ADVISED THAT THE ABOVE SPECIFICATIONS REPRESENT ONLY A SMALL PORTION OF THE POSSIBILITIES FOR BUILDING MATERIALS /PRODUCTS. The number of options and possibilities is virtually unlimited. Hildreth & White will try to anticipate that which we believe the customer wants; however, to list all the different options or possibilities would neither be practical nor feasible.
- 12. It shall be the responsibility of the Buyer to coordinate the installation and or transfers of utilities ( e.g. water company, electric company, cable company) phone service, heating oil suppliers, etc. Seller recommends contacting these suppliers 30 days prior to occupancy. **Do not schedule for cable/Tel hook up until you have confirmed with Hildreth & White that pull strings are in the conduits.**

- 13. Sealing of drive ways is not included but recommended for proper protection and should be done on a regular basis.
- 14. Location of utilities; e.g., oil tank, electrical panel, domestic water supply, shall be determined by Seller and shall be based upon meeting municipal and state code and requirements of utility suppliers.
- 15. Delivery of lighting fixtures to the site shall be the responsibility of the Buyer, except for those units supplied by the electrician. Any items not supplied in time for electrician, shall be subject to additional visitation charge of \$75.00 --payable at closing/transfer.
- 16. Except as noted on page 2 of Exhibit B at closing, all Standard Allowance materials and services supplied shall be considered supplied by Seller.
- 17. In the event any materials referenced above become unavailable to the extent that they shall be cause for a delay in completion date, Seller shall have the right to utilize alternate materials of equal quality and or performance.
- 18. Most homes cover nicely with an exterior 2 coat application however, some colors cover better than others, in the event a 3rd coat is needed and or wanted by the Buyer, the additional cost shall become that of Buyer and shall be done by change order. Seller shall not be responsible for conditions due to extractive bleeding. This is a condition inherent to the use of cedar siding and does not represent a failure of the paint or stain.
- 19. Installation of stove/ range venting to the exterior is included. In the event it is to be done, it must be know prior to framing and be incorporated as part of the construction drawings.
- 20. Kitchen plans must be finalized by Buyer prior to framing . It shall be the Buyer's responsibility to make sure kitchen plans include items discussed with kitchen designer; e.g., knobs, inclusion of soffits, etc.
- 21. Hildreth & White does not install the following items: gutters or rain diverters. Said items will help control water and damage resulting from uncontrolled water such as back-splashing under doors which can pose leaks and premature rotting. However to use them also poses separate risks such as ice dams and washout. We recommend installing diverters and gutters in conjunction with your final landscaping after the home is complete. Damage or problems resulting from using them or not using them is not the responsibility of Hildreth & White.
- 22. No warranty work will be performed until such time as all money held in escrow owed to the Seller for work completed has been received.
- 23. Please be advised that the burning of candles may cause black soot marks through out the house. If you are not familiar with this problem we encourage you to investigate further. There will be no warranty coverage for such damage.
