The following is excerpted from the Harvey Storm Products brochure currently available online:

Tru-Channel Storm Windows

When new replacement windows are not an option, whether for budgetary or historical maintenance reasons, Harvey Tru-Channel aluminum storm windows are an excellent solution. Harvey Tru-Channel provides maximum energy efficiency and is one of the top performing storm windows in the marketplace today. Custom made to fit the exact dimensions of your existing windows, Tru-Channel storm windows are easy to operate, self-contained units that will provide extra insulating value.

- Twice the weatherstripping as ordinary storm windows
- Both sash interlock with a sturdy frame tie bar for maximum wind resistance
- Triple-track "combination" design for self storage of sash and screen and sash tilt-in capability
- Locking non-glare, charcoal-finished fiberglass half screen
- Among the lowest air infiltration rates (.05 CFM/FT) of any storm window
- Approved for Airport Sound Abatement Programs nationally
- Marine glazing seals keep the glass tight and secure in its frame
- Optional steep slope extender available

Comparative Air Infiltration Rates (CFM/FCP)

	Tru-Channel	Industry Standard
1.0		1
0.5		
0	0.05	

The lower the number, the better the performance.

Harvey storm windows are available in a variety of styles including double hung, rolling and picture.
