June 24, 2005

Dear Mr. and Mrs. Weyl:

RE: Application for Single Family House Relocation, Brewer Street, ID # 2005-0120

Thank you for your application to relocate a single family home from #1563 Congress Street to your lot on Brewer Street. Upon review of the site plan, the City's Planning Division has the following comments:

1. 4 parking spaces, 9'x19' each, are required (2 per unit). Please add 4th space to the site plan. Note: parking in the R-5 zone must be outside of the front setback.
2. Relating to item #1, it may be possible to add the 4th space in front of the garage and eliminate the proposed curb cut and paved driveway in front of the new building. Please consider.
3. Please show proposed topography/grading on your site plan.
4. Add erosion control (silt fence) as applicable.

Please submit 4 copies of revised plans to my attention.
Feel free to call me if you have any questions or comments.

Sincerely,

Jay Reynolds
Development Review Coordinator

17 Brewer Street
Portland, ME 04102
Tel: 774-9172
June 7, 2005

The City of Portland
Planning and Development Department
389 Congress Street
Portland, ME 04101

Dear Sir or Madam:

We have acquired the 2-story house and the adjoining garage at 1563 Congress Street from Mr. Michael Rogers, and are planning to move both structures to our side yard at 17 Brewer Street, as a rental unit addition to our house. The distance of the move would be approximately one block, as Brewer Street is directly across Congress Street from the structures.

The anticipated date of the move would be during the final week of June or the first week of July, 2005. Our house mover is James Merry of Scarborough. Our contractor is E.G. Johnson of Portland, who will subcontract an electrician and plumber. We have already contacted CMP, Verizon and Time Warner Cable about the feasibility of the move.

The estimated cost for this project is \$65,000.00.

In addition to moving the house to a foundation in our side yard, we would have a city licensed contractor make a curb cut 5 feet from the neighboring driveway to provide off-street parking for the tenants of the unit. The Department of Public Works has given initial approval for this curb cut.

Our landscape plan includes planting two small river birch trees in the side yard.

Thank you for your consideration of this project.

Peter and Terry Weyl

This application is for site review ONLY, a building Permit application and associated fees will be required prior to construction.

Development in Portland

The City of Portland has instituted the following fees to recover the costs of reviewing development proposals under the Site Plan and Subdivision ordinances: application fee; engineering fee; and inspection fee. Performance and defect guarantees are also required by ordinance to cover all site work proposed.

The **Application Fee** covers general planning and administrative processing costs, and is paid at the time of application.

The Planning Division is required to send notices to neighbors upon receipt of an application and prior to public meetings. The applicant will be billed for mailing and advertisement costs. Applicants for development will be charged an **Engineering Review Fee**. This fee is charged by the Planning Division for review of on-site improvements of a civil engineering nature, such as storm water management as well as the engineering analysis of related improvements within the public right-of-way, such as public streets and utility connections, as assessed by the Department of Public Works. The Engineering Review fee must be paid before a building permit can be issued. Monthly invoices are sent out by the Planning Division on a monthly basis to cover engineering costs.

A **Performance Guarantee** will be required following approval of development plans. This guarantee covers all required improvements within the public right-of-way, plus certain site improvements such as landscaping, paving, and drainage improvements. The Planning Division will provide a cost estimate form for figuring the amount of the performance guarantee, as well as sample form letters to be filled out by a financial institution.

An **Inspection Fee** must also be submitted to cover inspections to ensure that sites are developed in accordance with the approved plan. The inspection fee is 2.0% of the performance guarantee amount, or as assessed by the planning or public works engineer. The minimum inspection fee is \$300 for development, unless no site improvements are proposed. Public Works inspects work within the City right-of-way and Planning inspects work within the site including pipe-laying and connections. (The contractor must work with inspectors to coordinate timely inspections, and should provide adequate notice before inspections, especially in the case of final inspection.)

Upon completion of a development project, the performance guarantee is released, and a **Defect Guarantee** in the amount of 10% of the performance guarantee must be provided. The Defect Guarantee will be released after a year.

Other reimbursements to the City include actual or apportioned costs for advertising and mailed notices. All fees shall be paid prior to the issuance of any building permit.

For more information on the fees or review process, please call the Planning Division at 874-8719 or 874-8721.
